

“My Possessions”

Like Mary Mattingly, make a list that documents your own possessions using the table below.

Possession (item or object)	Purpose of the possession (what it's used for)	Origins (country and/or company)	Likely future of the possession (How long is it expected to last? What will happen to it once its use is finished?)

On the back of this sheet, answer: What country or company appears most on your list?

Why do you think this is the case?
